

HandleForResizable.OnMouseDown

HandleForResizable.OnMouseUp

Resizable.SetIsTryingToResize

```
graph LR; A[HandleForResizable.OnMouseDown] --> C[Resizable.SetIsTryingToResize]; B[HandleForResizable.OnMouseUp] --> C;
```

The diagram illustrates a relationship between two event handlers and a single method. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'HandleForResizable.OnMouseDown' and the bottom box contains 'HandleForResizable.OnMouseUp'. On the right, there is a gray rectangular box with a black border containing the text 'Resizable.SetIsTryingToResize'. Two blue arrows originate from the right side of the top-left box and the right side of the bottom-left box, both pointing towards the left side of the gray box on the right.
